PROFESSIONAL SUMMARY

Adaptable Information Technology student with a strong foundation in modern software lifecycle development, data structures, and cross-platform integrations. Ready to contribute technical agility, strong problem-solving skills, and a practical engineering mindset to a corporate IT internship.

EDUCATION

B.Tech in Information Technology
Konkan Gyanpeeth College of Engineering | Expected Graduation: 2027

- Current Status: 6th Semester student focusing on Web Technologies, Data Structures, and Embedded Systems.

Diploma in Mechanical Engineering
Government Polytechnic College Ratnagiri | Completed: Summer 2022

- Percentage: 61.56%

TECHNICAL SKILLS

- **Languages:** Python, Java, JavaScript, SQL, C++
- **Web Development:** MERN Stack (MongoDB, Express.js, React.js, Node.js), HTML5, CSS3, Streamlit.
- **Data Analysis & Computer Vision:** OpenCV, Data Visualization, Excel.
- **Tools & Deployment:** Git, GitHub, VS Code, Netlify, Blynk Cloud Platform, AWS DevOps.

PROJECT EXPERIENCE

PG Finder for Students | MERN Stack (MongoDB, Express, React, Node.js)

- Designed and developed a full-stack MERN application for student accommodation booking with responsive UI and RESTful APIs.

Automated Face Attendance System | Python, OpenCV, Computer Vision

- Developed a Python-based facial recognition attendance system using OpenCV to automate attendance tracking and Excel report generation.

CERTIFICATIONS & COURSES

Java + DSA Course – Apna College
Completed comprehensive training in Java programming, Object-Oriented Programming, Data Structures, and Algorithms.

Web Development Course – Apna College (Pursuing)
Learning full-stack web development including React.js, Node.js, Express.js, MongoDB, REST APIs, and deployment.

AI & ML Course – Apna College (Pursuing)
Studying Machine Learning fundamentals, Python libraries, data preprocessing, and AI model concepts.

AWS DevOps Certification
Gained knowledge of AWS cloud services, CI/CD pipelines, deployment workflows, and DevOps practices.
